

HXPAULD1

16 Channel Programmable Audio Load

Technical Data

- 16 independent Audio Loads (resistive)
- Software selectable values: OFF, 600Ω, 2Ω, 3Ω, 4Ω, 5Ω, 6Ω, 8Ω
- Loads max power (single): 100W*
- Loads max power (all loads): 100W**
200W for max 15 minutes
500W for max 8 minutes
- Thermal shutdown protection
- AudioJ-Link™ connection to Flexmedia XM audio-analyzers
- Parallel or multiplexed measurement through AudioJ-Link™
- 10/100 Mbps Ethernet control interface
- Power-over-Ethernet (PoE+) power supply
- Size: 19" 1U

* Peak value not continuous on all values but 600Ω

** Max power can be increased to 1000W on HXPAULD2

Applications

- Audio amplifiers
